CAPABILITIES STATEMENT

BuzzClan is a SOC2 Certified technology consulting firm collaborating to provide software, advisory, implementation, and staffing solutions. We have been in the consulting business for over a decade now.

We offer consulting services in these areas: Digital Transformation, Data Engineering, Data Science and Analytics, Technology Infrastructure Services, ERP services, Cloud Enablement, Migration & Support, Managed Services, Cyber Security & Risk Management.

BuzzClan has successfully delivered workforce as Contract Staffing(Short Term and Long Term contracts), Contract to Hire and Direct Hire arrangements. We are servicing customers in several verticals including but not limited to Information Technology, Education, Engineering, Healthcare, Pharmaceuticals, Telecom, and Government.

Practice Areas:

▸Technology Infrastructure Services:

BuzzClan has capabilities around various deployment scenarios like public & hybrid cloud. This enables us to deliver a higher return on investment & low cost of ownership across all classes of infrastructure applications.

▸Data Engineering & Analytics:

BuzzClan holds Data engineering expertise across various verticals. While we can set up robust acquisition and reporting structures, we can also rescue existing implementations from dire straits, improve performance, and simplify architecture and modeling complexity.

▸Business Application Services:

BuzzClan can provide reliable management of the entire ERP application portfolio by delivering reliable, secure applications implementations that streamline processes, improve efficiencies and provide a superior user experience.

▸ Cyber Security & Enterprise Risk:

An unplugged leakage is a source of potential risk that could cost an enterprise. We have constantly worked towards developing various robust applications that are based on compliance frameworks and reduce risk exposure to organizations.

▸ Digital Business Service:

Providing essential support across technology, operations and key central business services for our global businesses and functions. We play a vital role in driving great experiences for customers and colleagues and enabling the bank's strategy. We offer a broad range of career opportunities.

▸Surveying and Mapping (except Geophysical) Services:

We help our clients visualize and analyze spatial patterns and trends to arrive at more informed decisions from planning and development to operations. From helping the Utility industry to locate service delivery issues, and furnishing situational awareness for urban planning & development, to exploration and analysis of natural resources, BuzzClan delivers decisive insights for planning campaigns, minimizing risks, and predicting performance.

▸Staff Augmentation:

BuzzClan provides temporary staffing, contract-to-hire, direct hire, project-based, onsite/onshore remote and global/offshore staffing, and payroll services as per the client's requirement. Our range of workforce solutions and geographic coverage has grown steadily over 10 years to match the needs of our customers.
