# geoConvergence

**U.S. SBA 8(a) and HUBZone Certified**

geoConvergence is an SBA 8(a) & HUBZone Certified Small Disadvantaged Business. Since 2004, geoConvergence has specialized in implementing, integrating, and extending core Esri technology.

We pioneer problem solving by leveraging the power of geospatial intelligence. We apply cutting-edge cloud technologies to accelerate I awareness and decision making.

## A Processing Gap Between Analysis and Action

# Capability Statement

# Converged Intelligent Decision System

Our next generation Converged Intelligence platform converges data from Multi-INT and Multi-Domain sources providing situational awareness and threat detection enabling rapid analysis and decision making. Our convergence solution correlates, curates and identifies anomalies to known patterns of life behavior and displaying the analytic results to analysts in an intuitive single pane of glass interface. Our goal is to help our warfighters maintain cognitive overmatch.

geoConvergence has earned multiple Esri awards and specialty badges which include ArcGIS Indoors, System Ready, and Federal Small Business. Our services include geospatial intelligence, software and cloud engineering.

Our project portfolio includes support and solutions for:

- U.S. Department of Veterans Affairs
- U.S. Department of the Navy
- U.S. Department of the Army
- State of Indiana: Office of Technology
